

BARNES HOOKS IN TO POSTOFFICE

"Hero" of the Mrs. Morris Incident Finally Confirmed by the Senate.

TILLMAN FIGHTS IN VAIN
WILL DISCUSS MATTER IN OPEN
SESSION.

Washington, June 23.—Benjamin F. Barnes, assistant secretary to the president, was today confirmed by the senate in executive session as postmaster at Washington. The vote was 35 to 16. By a reverse vote a resolution was defeated providing for an investigation of the Mrs. Morris incident in March, when by order of Mr. Barnes the woman was ejected from the White House offices. The nomination had been pending since April 2. The procedure in the senate was dramatic. Senator Tillman went over the testimony which the committee on postoffice and postroads declined to receive when it refused to enter upon an investigation of the Mrs. Morris affair.

Read Statement of Eye-Witnesses.

He had read the statement of eye-witnesses and the story from under his desk a black silk skirt wrapped in a newspaper. This was the skirt worn by Mrs. Morris when she was carried or "dragged," as she claimed, from the White House. It was torn and muddy, showing the imprint of shoes. It was shown by Mr. Tillman that the lower part of the woman's body had been trampled on by the police officers and the White House attendants, including a negro, who had assisted in taking her to a carriage.

No effort was made by any senator to defend the action of the police. Senator Carter said that if there had been any assault upon the woman the police alone were to blame. He said that Mr. Barnes could not be held responsible as the ill-treatment, if any, had occurred outside of the offices.

Will Get It Into the Record.

Senator Tillman gave notice that on Tuesday he will repeat his remarks in the open senate and exhibit the torn clothing of Mrs. Morris. He will find the occasion for this in moving for a vote on his resolution asking for an investigation of the police force. Senator Tillman said that it was a peculiar coincidence that the only eye-witnesses who defended the incident were Elmer E. Payne, a newspaper man who had received a naval academy appointment for his son, and the police, whose superintendent, Richard Sylvester, had received a like favor from the hands of the president.

SCANDINAVIANS AT LAGOON

They Gather From All Parts of Utah
Celebrate Midsummer Day.

Scandinavians from all parts of Utah met at Lagoon yesterday to celebrate Midsummer day. The day was a success aside from disagreeable weather conditions. In the afternoon rain and hail alternated and in the evening there was a cold, piercing wind. About 400 Scandinavians were present, coming from Salt Lake, Brigham City, Provo, Ogden and the towns in southern Utah.

The festivities were commenced by dancing around the May pole. It was erected especially for the occasion and was decked with flowers and bunting of many colors. At the top floated a beautiful American flag. At different places on the pole were Scandinavian flags. The dancers were all dressed in native Scandinavian costumes.

In the afternoon there was a programme given in the pavilion which consisted of songs by Swedish choir and poems in the Scandinavian language; also some native dances. The programme ended by the choir and the audience singing "America."

The oration of the day was delivered by Judge C. M. Nielson, and he talked mostly of the history of the people living in American history. He related many of their exploits in the wars of the republic and told of their brave deeds on the Maine when it was blown up. He ended by saying:

"While we look upon our flag and cherish our native land, we have made a solemn promise with our adopted country and as long as there is a drop of blood warm in our veins, we will be our forefathers who fought under George Washington, honor the Stars and Stripes."

During the afternoon there were a great many sports which were of the form mostly of foot races and boat races. There were thirty events and some lively contests took place. The greater part of the evening was spent in dancing and there were many who sang the national hymns of the Scandinavian countries. The weather became so disagreeable in the evening that most took the early trains in.

BIG FOURTH AT SANDY.

Town Will Be Lighted by Electricity
for First Time.

The people at Sandy are making elaborate preparations for the celebration of the Fourth of July. Aside from the observance of the national holiday another event of importance takes place. The Utah Light & Railway company has extended its wires and Sandy will be lighted for the first time by electricity. All the business houses and most of the residences have been wired, and Sandy will be a blaze of glory on that night.

The feature of the celebration will be the big electrical display in the evening. A great many devices have been arranged to exhibit electricity and its many uses. Lights have been set up all through the streets and buildings, and it will be a brilliant scene when the power is turned on at 8 o'clock that evening. The display is under the supervision of the Jordan Commercial & Producers' association, and the Utah Light & Railway company will furnish free of charge all the power used that night.

BIG TIME AT SALTAR.

Real Estate Association Making Extensive Plans for Their Outing.

There will be many features of interest at the real estate excursion to Saltar, Thursday, June 28, in addition to the drawing for the \$5,000 in prizes. All the usual attractions of Saltar will be in full blast and there will be a vaudeville show in the theatre. In this a male quartette will sing the latest popular airs, there will be musical and funny turns, acrobatic acts and many other number of interest. Great preparations are being made for this excursion. The prizes are numerous and valuable, some of them are unique and every purchaser of a ticket has a chance.

RECTIFIERS HAD THE MAJORITY

Representatives Prefer Imitation Whisky to the Genuine Article.

PURE FOOD BILL PASSED
HOUSE TREATED TO A DEBATE
ON BOOZE.

Washington, June 23.—The so-called pure food bill was passed today by the house, and the conference report on the railroad rate bill adopted.

Nearly the entire day was taken up with the consideration of the pure food bill under the five-minute rule, and, while many amendments were offered, most of them were voted down. Those that were adopted were corrections and changes in verbiage. The pure food bill was passed by a vote of 242 to 17.

The Whisky Question.

The Republicans of the southern states treated the house to an instructive and exhaustive debate on whisky, but the friends of the "straight" article were routed by the friends of the rectifiers by a vote of 34 to 76 on an amendment. Mr. Richardson of Alabama spoke in behalf of the makers of "straight" whisky.

In the course of his remarks Mr. Richardson maintained that there were 105,000,000 gallons of imitation whisky against a little more than 2,000,000 gallons of the pure article consumed in the United States last year.

He declared that the rectifier, by adding to a thimbleful of eight-year-old whisky, chemicals, oils, flavoring, bead and aging, produced an alleged eight-year-old brand which went to the consumer as such. He wanted this kind of whisky marked "blended," and the substances stated.

Mr. Sherley of Kentucky, in behalf of the rectifiers, explained the contention of the two whisky companies, the distillers and the rectifiers.

Mr. Stanley Illustrates.

Mr. Sherley's remarks brought Mr. Stanley of Kentucky into the debate. He took a bottle from the table, poured the contents into a graduate and said: "Here is a quart of alcohol, 100 proof strong. It will eat the intestines out of a coyote. It will make a howling dervish out of an anchorite. It will make a rabbit spit in a bulldog's face. It is pure alcohol, and under the skill of the rectifier, he will put in a little coloring matter and then a little bead oil (illustrating). I drop that in it. Then I get a little essence of bourbon whisky and there is no connoisseur in this house who can tell that hellish business from the genuine article, and that is what I denounce. I say that the coloring matter is not harmful. I say that the caramels are not harmful, but I say that the body stock of the whisky I made is rank alcohol and when it gets into a man it is pure hell." (Applause.)

The vote was then taken on the

amendment of Mr. Richardson and it was defeated.

An amendment offered by Mr. Lacey of Iowa, stating that the Wilson act prohibiting the transportation of liquor from one state to another, when prohibited by the state, was not repealed by the pure food act, was adopted without debate.

The bill was passed by a vote of 242 to 17, the following voting in the minority: Adamson, Aiken, Bartlett, Burleson, Chandler, Garrett, Gillespie, Henry of Texas, Hill of Mississippi, Humphreys of Mississippi, Kellher, Moore, Russell, Sheppard, Sherley, Smith of Texas, Williams of Mississippi.

By unanimous consent the conference report on the railroad rate bill was taken up and while there was discussion over the anti-pass agreement, the previous resolution was adopted by a vote of 121 to 97, the conference report being agreed to, 213 to 4.

The house adjourned at 6:15.

SWEDISH DAY AT LAGOON.

They Will Give Characteristic Dances of the Fatherland.

The Swedish festival arranged by the Varden Literary society to be held at Lagoon tomorrow will contain many features. One of the attractions will be the Swedish National Dancers, consisting of sixteen people in the national costume, who will give characteristic dances of the Fatherland. There will be a musical and literary programme and games and sports of various kinds.

What a credit to Utah and Utah industries to have such products as MOUNT'S Pickles doing the boosting.

ROOSEVELT TO VISIT ISTHMUS

President Will Inspect the Canal Route—Western Trip Abandoned.

Washington, June 23.—President Roosevelt will visit the Isthmus of Panama to make a personal investigation of the construction work on the Panama canal. This announcement was made at the White House today by Secretary Loeb. It is expected that the president will leave in October or early in November. He will be absent about three weeks. The trip, it is believed, will be made on one of the big cruisers of the navy. None of the details have been worked out beyond the bare decision to make the trip. It is likely that the president will be accompanied by Secretary Taft and Chairman Shonts of the Panama canal commission.

Has Long Wanted to Go.

The president has desired to inspect the route of the canal for some time, and make himself personally familiar with the great undertaking. He will be able to spend at least a week in the zone and in that time he will familiarize himself with the situation.

In connection with the announcement of the president's intention to visit Panama, Secretary Loeb said the president had decided not to visit San Francisco next autumn to participate in the laying of the corner-stone of the new federal building. While the president, it can be said, desires to do anything he can properly to promote construction, he cannot make the trip to both Panama and San Francisco.

Western Trip Abandoned.

For several weeks he has been considering making a trip next spring through the middle west. But since the announcement was made of the likelihood of his taking the trip such a mass of invitations has been received that he has given up the plan. It became evident that if he should accept one-tenth of the invitations the trip would occupy two or three months. The probability is that he will go next May to Lansing, Mich., to attend the semi-centennial celebration of the establishment of the first agricultural college in this country. There he will meet many of the prominent educators of the country. The trip will be brief, occupying probably not more than four or five days.

OUTING AT CALDER'S.

Granite Stake Relief Societies Have a Good Time.

The Granite Stake Relief societies had an outing at Calder's park yesterday. In the afternoon sports of many varieties took place and there was a strawberry festival. The evening was spent in dancing and other amusements.

Dedicatory Message by Mary Baker G. Eddy

(Copyright, 1906, by Mary Baker G. Eddy. Used with Permission of the Author.)

Choose Ye

My beloved brethren:—

The divine might of Truth demands well-doing in order to demonstrate truth, and this not alone in accord with human desire but with spiritual power. St. John writes: "Blessed are they that do his commandments, that they may have right to the tree of life, and may enter in through the gates into the city."

The scar leaves of faith without works, scattered abroad in Zion's waste places, appeal to reformers. "Show me thy faith by thy works."

Christian Science is not a dweller apart in royal solitude; it is not a law of matter nor a transcendentalism that heals only the sick. This Science is a law of divine Mind, a persuasive animus, an unerring impetus, an ever-present help. Its presence is felt, for it acts and acts wisely, always unfolding the highway of hope, faith, understanding. It is the higher criticism, the higher hope; and its effect on man is mainly this—that what one knows of him, on examination one is compelled to think genuine, whoever did it. A Christian Scientist verifies his calling. Choose ye!

When, by losing one's faith in matter and sin, one finds the spirit of Truth, then he practises the Golden Rule spontaneously; and obedience to this rule spiritualizes man, for the world's noxious volens cannot enthrall it. Lust, dishonesty, sin disables the student; it precludes the practice of efficient teaching of Christian Science, the truth of man's being.

The Scripture reads: "He that taketh not his cross, and followeth after me, is not worthy of me." On this basis, how many are following the Way-shower? We follow Truth only as we follow truly, meekly, patiently, spiritually, blessing saint and sinner with the heaven of divine Love, which woman has put into Christendom and medicine.

A genuine Christian Scientist loves Protestant and Catholic, D. D. and M. D.,—loves all who love God, good; and he loves his enemies. It will be found that, instead of opposing, such an individual subverts the interests of both medical faculty and Christianity, and they thrive together, learning the Mind-power is good-will toward men. Thus unfolding the true metal in character, the iron in human nature rusts away; honesty and justice, not "just ice," characterize the seeker and finder of Christian Science.

Thanks for the railroad company's courtesy, long live that railroad management, in which "man's a man for a' that!"

The pride of place or power is the prince of this world that hath nothing in Christ. Our great Master said: "Except ye become as a little child, ye cannot enter the kingdom of heaven"—the reign of righteousness, the glory of good, healing the sick and saving the sinner. The height of my hope must remain. Glory be to Thee, Thou God most high and nigh.

Whatever is not divinely natural and demonstrably true in ethics, philosophy, or religion is not of God and originates in the minds of mortals. It is the Adam dream according to the Scriptural allegory, wherein man is supposed to start from dust and woman to be the outcome of man's rib,—marriage synonymous with 'legaled lust, and the offspring of sense the murderers of their brothers!

Wholly apart from this mortal dream, this illusion and delusion of sense, Christian Science comes to reveal man as God's image. His idea, co-existent with Him—and God giving all and man having all that God gives. Whence, then, came the creation of matter, sin, and death, mortal pride and power, prestige or privilege? The first commandment of the Hebrew Decalogue, "Thou shalt have no other gods before me," and the Golden Rule are the all-in-all of Christian Science. They are the spiritual idealism and realism, which, when realized, constitute a Christian Scientist, heal the sick, reform the sinner, and rob the grave of its victory.

The spiritual understanding, which demonstrates Christian Science, enables the devout Scientist to worship, not an unknown God, but Him whom, understanding even in part, he continues to love more and to serve better.

Beloved, I am not with you in propria persona at this memorable Dedication and Communion season, but I am with you in spirit and in truth, lovingly thanking your generosity and fidelity, and saying virtually what the prophet said: "Continue to choose whom ye will serve."

Forgetting the Golden Rule and indulging sin, men cannot serve God; they cannot demonstrate the omnipotence of divine Mind, that heals the sick and the sinner. Human will may mesmerize and mislead man; divine wisdom, never, indulging deceit like the defendant arguing for the plaintiff in favor of a decision, which he knows will be turned against himself.

We cannot serve two masters. Do we love God supremely? Are we honest, just, faithful? Are we true to ourselves? "God is not mocked." "Whoever a man soweth, that shall he also reap." To abide in our unselfed better self, is to be done forever with the sins of the flesh, the wrongs of human life, the tempter and temptation, the smile and deceit of damnation. When we have overcome sin in all its forms, men may revile us and despoil us, and we shall rejoice, "for great is our reward in heaven."

You have dexterously and wisely provided for The Mother Church of Christ, Scientist, a magnificent Temple wherein to enter and pray. Greatly impressed and encouraged thereby, deeply do I thank you for this proof of your progress, unity, and love.

The modest edifice of The Mother Church of Christ, Scientist, began with the cross; its excelsior Extension is the crown. The room of your Leader remains in the beginning of this edifice, evidencing the praise of babes, and the Word, which proceedeth out of the mouth of God. Its crowning ultimate rises to a mental monument, a superstructure high above the work of men's hands, even the outcome of their hearts, giving to the material a spiritual significance—the speed, beauty, and achievements of goodness. Methinks this church is the one edifice on earth, which most prefigures self-abnegation, hope, faith, love, catching a glimpse of glory.

Investment Worthy Investigation.

Money put in the bank brings a low rate of interest but is generally safe. There are, however, other investments equally as safe and more productive. We list a full line of the following "stocks" and recommend them to your notice, firmly believing that as a security giving adequate results to the investor they cannot be excelled.

McCormick mowers, binders, headers, reapers and rakes.
International Harvester and Red Tag binding twine and rope.
U. S. Cream Separators.
F. B. Myers & Bro. and Red Jacket pumps.
Oliver and Deere plows.
Witcher dams.
Bain and Cooper wagons.
J. H. Co. gasoline engines for all purposes.
J. I. Case threshing machines, engines and horse-powers.
The most complete line of light vehicles offered at any point west of Chicago.

"Rambler" automobiles demonstrated for durability, speed and hill climbing propensities.
The farmer, rancher, stock raiser and the public generally are invited to inspect our list of stocks at Salt Lake City, Ogden and Logan, Utah, Idaho Falls and Montpelier, Idaho, and at the thirty additional stores we have located at different points in Utah, Idaho, Wyoming and Nevada.

Correspondence addressed to the above points nearest located to your residence or shipping point insures the quick reply.

Our general offices at Salt Lake City will be closed at 4 p. m. Saturdays from now until Sept. 1st inclusive, owing to the fact that railroads will not receive freight after that hour.

Sundays during the harvest season a force of men are at work from 10 a. m. until 2 p. m. filling orders for machines extras. Telephone use independent 120 and 163; Bell 163 during the hours named.

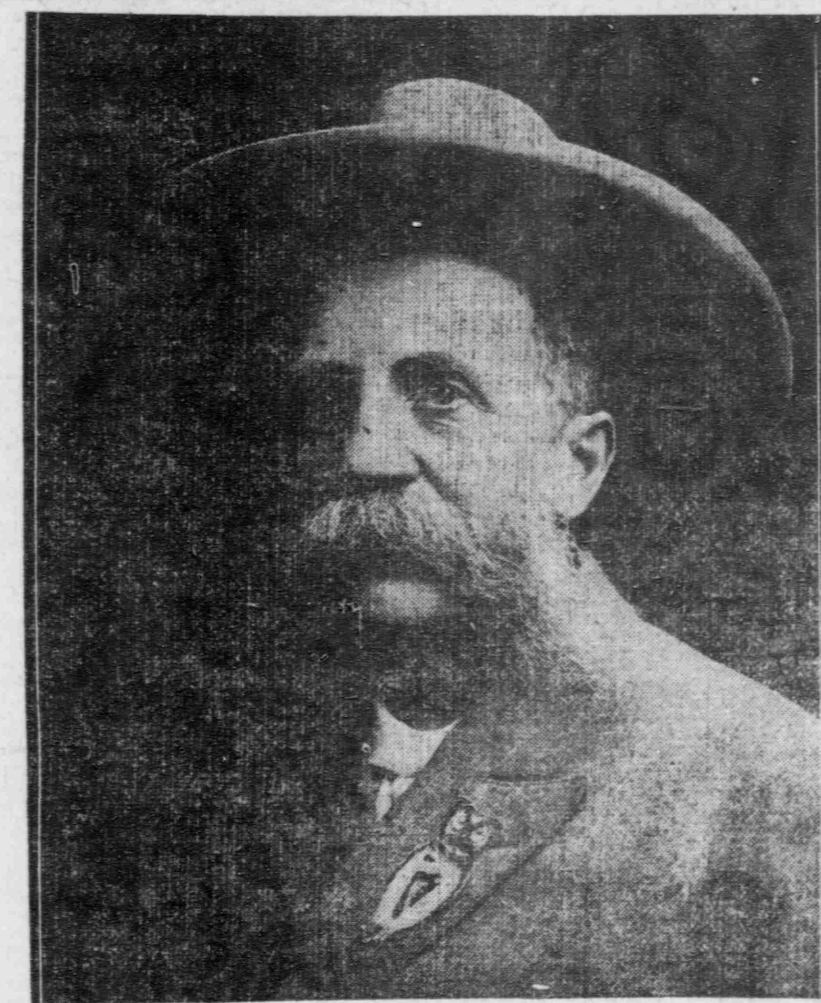

Watchman on the premises nightly.

Consolidated Wagon & Machine Company,

LEADING IMPLEMENT DEALERS, UTAH AND IDAHO.

Jos. F. Smith, President.
W. S. McCormick, Vice Pres.
Melvin D. Wells, Secretary.

GEO. T. ODELL,
General Manager.

C. W. HIGGINS, M. D.

In making this review of the commerce, industries and professions of the city of Salt Lake, the Telegram cannot lay too much stress on the gratitude that is due from the public to the medical men of this city and state, and particularly to such a useful specialist as the one whose name forms the caption of this brief sketch. Dr. C. W. Higgins is widely and favorably known throughout Utah and the adjoining states, as a noted medical specialist, and has demonstrated time and again his eminent professional abilities—the cure of many serious cases, and who is very highly regarded by his many former and present patients. He makes a specialty of the treatment of such diseases as neuralgia, liver and kidney complaints, rheumatism, scrofula, erysipelas, catarrh, deafness, lung diseases, tapeworms, stiff joints, biliousness, sore eyes, gravel, weak spine, varicose veins, nervous weakness, etc. Dr. Higgins is also a specialist on epilepsy and fits, and by his treatment can effect a permanent cure. Owing to his splendidly arranged system and the fact that he is a specialist, he is enabled, when those afflicted write special descriptions of their cases, to select the proper treatment in every case and send by mail or express. All communications and interviews are strictly confidential, while no professional charges are made until the patient is discharged as cured by Dr. Higgins. He is not a new-comer to Salt Lake City, but has an established record of thirty-two years to his credit, and during all these years thousands of patients have been positively cured and are now enjoying good health. His offices are at the corner of Main and Third South streets, St. Elmo hotel. Dr. Higgins is thoroughly responsible and reliable, and will not undertake a case unless he is absolutely sure that he can effect a cure, and his word is good in each and every case.—Salt Lake Telegram.

You can see some very long, loose, sack coats this season with either one or two vents in the back and extremely padded shoulders.

But they won't come from the very best tailors, nor from us.

Men's suits from New York's highest priced tailors and from

Alfred Benjamin & Co.'s

factory, are cut as follows: Coat moderately long, slightly shaped to the back.

NO VENTS AT ALL

shoulders built up only as each wearer requires, broad low lapels showing bit of waistcoat above. Trousers moderately loose, nearly same size at knee and bottom. Ready made. For sale only in Salt Lake by

Poulton, Madsen, Owen & Co.
